

Professional Summary

DevSecOps-oriented Full Stack Developer with hands-on experience building production-grade applications across cloud, backend, and AI-integrated environments. Proficient in **Python scripting**, **CI/CD pipeline management**, **Docker containerization**, and **OpenAI/Gemini API** integrations. Experienced in secure coding practices, RESTful API development, and database-driven automation. Eager to embed security across the software delivery lifecycle in fast-paced Agile teams.

Education

M.Sc. in Software Systems

Kongu Engineering College, Erode, Tamil Nadu

CGPA: 7.94/10.0

2022 – 2027

Work Experience

Software Engineering Intern

Inresco Technology Solutions Private Limited

Jul 2025 – Dec 2025

On-site – Bengaluru, Karnataka

- Engineered and deployed production-grade features across three enterprise platforms (EdTech, AI, CRM), applying **secure coding practices** and contributing to **CI/CD pipeline** workflows via **GitLab** for continuous integration and deployment.
- Spearheaded frontend development for Global University Systems using **Next.js**, integrating **AWS cloud services** and **OCR-driven document** workflows; leveraged **Python scripting** to automate student application processing by ~30%.
- Built Flinkk Assist, an **AI-powered chatbot SDK** leveraging **OpenAI-compatible vector database search (RAG)**, image analysis, and WhatsApp webhook integrations — directly paralleling AI-driven security automation and threat detection use cases.
- Architected core modules for Flinkk CRM and executed a **Python-based ETL data migration** from Vtiger, transferring **50,000+ records** and **20,000+ user profiles** with data integrity validation using **SQLite3** and SQL.

Full Stack Developer Intern

Lights Inc

Sept 2024 – Mar 2025

Hybrid – Erode, Tamil Nadu

- Developed LightsOn, a full-stack personal finance application using the **MERN stack**; implemented **JWT-based authentication** and **role-based access control** to enforce secure data access for **40+ active users**.
- Designed, tested, and documented **RESTful APIs** using **Postman**; enforced input validation and error-handling best practices as part of a **DevSecOps-aware** development approach in an Agile sprint cycle.

Projects

Calm Sphere : AI Mental Health Care Assistant — Next.js, FastAPI, Gemini

[GitHub](#)

API, Redis, Docker

- Architected a full-stack AI chatbot using **Next.js** and **FastAPI**, integrating the **Gemini API** for real-time conversational support; containerized services using **Docker** for consistent, portable deployments.
- Implemented **Redis** for low-latency chat caching (**60% latency reduction**), **Firebase** for secure auth, and deployed via **Vercel** (frontend) and **Render** (backend) with environment-scoped secrets management.

Nyroverve : Hostel Management System — Next.js, Prisma, PostgreSQL, Gemini,

[Live App](#) | [GitHub](#)

Docker

- Built a **multi-tenant** platform with **RBAC** (Super Admin, Admin, Staff, Students) and per-module permissions; implemented **JWT access/refresh token** auth with secure session management across all roles.
- Integrated a **Gemini-powered AI chatbot** with a scoped knowledge base (PDF/DOCX/URL parsing), bulk **CSV/XLSX** data ingestion pipelines, and automated compliance-oriented workflows — mirroring AI-driven automation in DevSecOps.

Technical Skills & Areas of Interest

Areas of Interest: DevSecOps, CI/CD Security, Cloud-Native Applications, AI-Driven Automation, Infrastructure as Code, Scalable Backend Systems

Languages: Python (OOP, scripting, automation), JavaScript, Java, C, SQL, HTML, CSS

DevSecOps & Cloud: GitLab CI/CD, Docker, Jenkins, Minikube (Kubernetes), Terraform (IaC), AWS (Core Services), Linux, Azure REST API (familiar), Vercel, Render

AI & Databases: OpenAI API, Gemini API, RAG / Vector Search, SQLite3, MongoDB, PostgreSQL, MySQL, Oracle SQL, Redis

Frameworks & Tools: React, Next.js, Node.js, FastAPI, Firebase, Postman, Git, GitHub, Bootstrap, React Native

Achievements & Leadership

- 1st Place**, Proof of Concept 2025 — Kongu Engineering College (Aug 8, 2025)
- 1st Place**, Ideathon 2K25 — Kongu Engineering College (Aug 19, 2025)
- 1st Place**, Hackwave'24 — Hostel Management System (March 2024)
- 3rd Place**, National Science Day Prototype Expo (February 2024)
- Department Coordinator — Innovation & Entrepreneurship Forum (2024–25), Self Development Club (2023–24), Gender Equality Club (2022–24)
